Senate Told of Understanding on 4-Ply Treaty  
MAY HOLD UP RATIFICATION  
Shields to Ask Document be Returned to Committee

(Bulletin)  
WASHINGTON — (United Press) — Secretary Hughes struck back sharply at senate critics of the American arms conference negotiations of the four-power pact today.  
In a letter to Senator Lodge he denied that any secret agreement existed between the United States and England, as charged by Senator Borah. Hughes, in stinging language, also expressed the hope that the American delegates will be saved further aspersions upon their veracity and honor.

(BY LAWRENCE MARTIN)  
WASHINGTON — (United Press) — Senatorial investigation of alleged "secret agreements" between the United States and Great Britain for cooperative action against Japan in the event of trouble, will be demanded by four-power treaty opponents before the senate votes on the treaty.

Senator Shields, Tennessee Democrat, was prepared today to move that the treaty would be sent back to the foreign relations committee, with instructions to summon Paul D. Cravath, New York lawyer, Elihu Root and Secretary Hughes, members of the American delegation in the arms conference.  
Borah, reading from what he said was a stenographic report of a speech Cravath made at a club dinner, quoted the lawyer as saying in effect he had learned from members of the American delegation, that an understanding had been reached for cooperation of the American and British fleets against Japan if there was trouble.

Treaty supporters made no effort today to conceal their anger over Borah's action. They counted the treaty fight as over and were displeased at the evidences of fight still shown by the opposition.  
DENIED BY CRAVATH  
NEW YORK — (United Press) — Paul D. Cravath denied today that in his speech before the council on foreign relations he declared the United States and Britain had a secret understanding as charged by Senator Shields.  
"What I have said in substance on more than one occasion, is that to my mind the successful and sympathetic cooperation between the American and British delegations at the Washington conference which is a matter of public knowledge, augurs well for future cooperation between those nations in dealing intelligently and effectively with the problems of the Pacific."

### ARRESTS OWN SON

Kentucky Magistrate Takes Boy on Burglary Charge

CINCINNATI — (Associated Press) — Into Cincinnati, Magistrate M. C. Coomer, of Somerset, Ky., pursued and arrested his son, Raymond, 18, on the charge of burglary. Pedestrians passing Sixth and Walnut-sts. today, saw a gaunt man with tears on his cheeks lay trembling hands upon the shoulders of one of three youths who had paused at the corner to watch the ebb and flow of city life.

"Son," said the magistrate, "we want you. You are my prisoner." The younger man turned and his face went white.  
"All right, father," he said, and extended his hands, expecting the official handcuffs.  
"No, not that," said the father. "You'll come along quietly."  
The boy and his father, along with two other young men and Cincinnati detectives and Deputy Sheriff J. C. Wall, of Somerset, Ky., proceeded to police headquarters, where the three prisoners were registered. The young men with Ray Coomer, gave their names as Leslie Lewis, 22, and Luther Lewis, 19.

### TRIAL DATE IS SET

Mrs. Obenchain Must Face Court Again June 5

LOS ANGELES — (United Press) — Madalynne Obenchain must face her second trial for the alleged murder of J. Belton Kennedy, her lover, on June 5.  
This date was set by Superior Judge Sidney Reeves today. Mrs. Obenchain, with attorneys for the defense and prosecution, was in court.

### DAVIS' ADMINISTRATION IS ATTACKED BY KNIGHT

WASHINGTON — (United Press) — Representative Knight of Akron, in a statement today said he had not officially decided whether he will seek the Republican gubernatorial nomination in Ohio, but stated he was favorable.  
Knight's statement attacked Carmel Thompson, of Ironton and Cleveland, and then issued a questionnaire for prospective candidates. He asked whether the candidates would endorse the reorganization act of Governor Davis' administration "and methods by which the voters were denied their constitutional rights to pass upon it."

"Are they in favor of the present spoils system? Do they propose to create more boards and commissions? Have they any definite plans for reducing unnecessary expenditures which everybody knows are sapling the vitality of the state? Are they in favor of the present school system? Does home rule for any city mean what the constitution says? And how about taxation?"

The people this year are not going to allow the beauties of the four-power pact, the tariff or foreign relations to divert their attention from state business," Knight said. "Our state affairs are not in good condition. The cost of government is increasing at an alarming rate and taxation is reaching a point where it is blighting manufacture, paralyzing the farm and all initiative of the individual."

Knight also attacked the recent Republican conference in Columbus in which he said that the "White House" choice was rattified by the big chiefs of the political machines in Cleveland, Toledo and Cincinnati. He charged that Governor Davis was to line up the state organization for that choice.

### SPEEDERS GIVEN JAIL TERMS

Law Violators Sentenced Under New Rule at Cleveland

CLEVELAND — (Associated Press) — Several drivers of automobiles will spend the next few days in jail or the workhouse besides paying a fine as the result of the new rule put into force in municipal court that violators of the speed law will get a jail term besides the fine, instead of merely paying the fine as heretofore.  
Three violators of the law today received fines of \$50, \$25 and the costs besides jail sentences ranging from ten to five days each.  
One of these was also deprived of his license for a month.  
Even a physician who was driving 25 miles an hour was fined \$25. He was not out professionally.  
The sentences are in accordance with the city ordinance which provides jail penalty.

### TAX MEASURE HIT

Proposed Ohio Amendment Called Blow at Business

CINCINNATI — (Associated Press) — "Double taxation" is an injustice to our taxpayers, "a blow at business," are some of the terms which Mayor Carrel used today in describing a proposed taxation amendment considered at a meeting of the executive committee of the group convention called by the Ohio Real Estate Boards in Columbus.  
The mayor accompanied by W. C. Calkins, secretary of the Cincinnati Chamber of Commerce, attended the meeting. The mayor charged that the proposed constitutional amendment, which was submitted to the voters at the election next November, is really an income tax measure, rather than an amendment intended to bring financial relief to cities. He intimated that the rural interests would get by far the best of the deal if the amendment were approved.

### 10 INDICTED

COLUMBUS — Four alleged postal robbers were among 19 persons indicted by the federal grand jury here today. The jury returned one sealed indictment. James Walsh, James O'Donnell, George Haughman and Charles Burgett were charged with burglarizing the postoffices at Plainfield, Lower Salem and Elba.

### Matter of Clothes, Eats, Drinks and Reading Personal Affair, She Declares

Helen Pettigrew, 23-year-old former Kansas City department store employee, is running for governor of Kansas on the Republican ticket. Her platform, it is announced, includes restoration of wines and beer, death to all blue laws, more jazz, bobbed hair, short skirts, and no more wars. Here's her story:  
(BY HELEN PETTIGREW)  
Candidate for Governor of Kansas  
I do not advocate a return to the old saloon system, but I do stand for the return of light wine and beer.  
Because I do not believe the liberty loving people of the United States want taken from them every privilege granted them under the United States constitution. I believe a majority of the people want light wine and beer.  
It is a well-known fact that under present conditions corn whiskey and other poisonous liquors are being sold in Kansas and are killing people here and all over the country.  
It is as absurd and inhuman to prohibit the sale of whiskey as medicine as it would be to prohibit the use of cough syrup and pills.  
OFF WOMEN SMOKERS  
Now with regard to smoking—I do not approve of women smoking, as has been said.  
Let men smoke, if they wish—but not to excess. Excessive smoking is an enemy of good health and of a vigorous constitution.  
Much has been said of my views on extremes in fashions, but I cannot see why a woman should not be allowed to dress as she chooses.  
And bobbed hair—I have never said I favored it, but I do say that I cannot understand why some people object so strenuously to the way a woman wears her hair.  
Such matters as women's dress, anyway, are outside the field of politics.  
What I really want to accomplish is, primarily, doing away with war and secondarily, keeping alive the spirit of personal liberty.  
It is on these two planks that I submit my candidacy to the voters of Kansas.

### G. O. P. MAJORITY CUT IN MAINE

Democrats Make Big Gain in Congressional Election

AUGUSTA, Maine — (Associated Press) — Republicans retain their hold of the third Maine congressional district but by a margin greatly reduced from the record Republican vote of 1920.  
With only 56 small places missing, returns today from the special election yesterday, showed that John E. Nelson, Republican, was elected over Ernest L. McLean, Democrat, by a majority of 6,294 votes.  
Nelson will fill the unexpired term of John A. Peters who resigned to become federal district judge for Maine. In 1910 Peters' majority was 19,257 votes. In 1918 Peters won by 5,761 votes, in 1916 by 3,654 votes and 1914 by 1515 votes.  
The majority of about 6,500, said Nelson, "is all that the most sanguine Republican could have expected and has been equalled in recent years only at the time of the great Republican landslide of 1920, a regular presidential election."

McLean said: "The figures indicate a most decisive victory for the Democrats. The Republican majority of over 19,000 votes in 1920, will be very seriously cut, and this notwithstanding that the Republicans were strongly organized had the benefit of a three months primary campaign to arouse their voters and had the entire press of the district."

### DODGE ON TRIAL

Charged With Driving Automobile While Intoxicated

KALAMAZOO, Mich. — (United Press) — John Duval Dodge, Detroit millionaire, went on trial today on a charge of driving an automobile while intoxicated.  
The trial was the result of an alleged mad ride by Dodge from Grand Rapids to Kalamazoo with three students of the Kalamazoo Normal School.  
Miss Emeline Kwackernack one of the girls, became frightened during the ride and dove out of the automobile, injuring her head.  
Attorneys hoped to have the jury completed late today.  
Dodge hurried here for the trial from Detroit where he had just completed a five-day sentence for speeding.

### ALIENS ALARMED AT JOB DRIVE

Fear Being Ousted in Favor of Former Soldiers

RUSH FOR FIRST PAPERS

Situation Serious at Detroit—Judges in Conference

DETROIT — (Associated Press) — Circuit Court judges here were called into conference today by Presiding Judge Ira W. Jayne to discuss the frantic efforts of aliens to obtain first citizenship papers, following announcement by several industrial heads that American citizens, particularly former soldiers, would be given preference in employment. The matter also was laid before naturalization officials of the federal court.  
Circuit court judges indicated they regarded the situation as serious and Judge John Fawcett of the municipal court, who also is chairman of the American Legion employment committee, characterized it as "a disgraceful prostitution of American citizenship."

### DRIVE STARTS RUSH

The rush of aliens for first papers began with the opening of the Legion's employment campaign on behalf of ex-soldiers. Dr. Frank B. Broderick, state welfare officer of the legion, declared a number of aliens lined up at the court building at four o'clock Monday morning in an effort to "save their jobs." Some of them, he added, had asked for "working papers" instead of citizenship papers.  
Legion officials have asked that if the courts find nothing more can be done, they carefully scrutinize the records of aliens during the war period.  
Some of the courts have rejected citizenship applications from men who claimed exemption from military service because they were aliens. It is estimated there are 30,000 alien factory employees in Detroit and that 20,000 former soldiers are out of work here.

### ENVOY FIRED ON

Murder of Chinese Minister to France Attempted

PARIS — (Associated Press) — An attempt was made today to assassinate Chen Lu, Chinese minister to France. Four shots were fired at him by a Chinese youth, none of which, however, took effect. Tsan Gow, a Chinese engineer, who was accompanying the minister, was wounded in the head.  
The minister's assailant, who surrendered shortly after the shooting, is a student who gave his name as Lee Ho Ling. He was disgruntled with the attitude of the minister towards the Chinese in Paris which he complained of as unkind. The attack took place as Chen Lu was driving in his automobile.

### DEAD MAN WILL BE HONOR GUEST

LOS ANGELES — (United Press) — Probably the weirdest birthday party in history will be held here Thursday night.  
Dr. J. M. Peebles, a dead man, will be the guest of honor at his own centenary anniversary.  
The Longer Life League is to be host.  
According to Gug Bogart, executive secretary, an invitation has been sent to Dr. Peebles and his acceptance received from the next world.  
Bogart said that Dr. Peebles explained he was being feted in heaven on the same day, in honor of his earthly centenary but would make every effort to attend both functions.  
A cover will be set for Dr. Peebles and a place reserved for him in the speakers' circle. He will be invited to speak a few words.  
Dr. Peebles was in life a believer in the power of the departed to communicate with this earth if they so desired. He pledged to prove this to his friends by communicating with them after death.

### MEMORY OF RICH VET IS GONE

HAYWARD THOMPSON AND HIS "SIGNATURE"

DENVER — (Special) — Hayward Thompson, former private, is roaming Denver streets in quest of a hidden fortune.  
The fortune is his own private wealth. It has been stolen and hidden away from him by loss of memory.  
He's living on a monthly government compensation check of \$157 granted him because of a shrapnel wound in his head which may be responsible for his mental condition.  
The strangest phenomenon in Thompson's case is that when he writes he instinctively writes backward.  
Thompson's memory goes back to Jan. 20 1922, when he registered at a hotel here.  
Thompson remembered having had \$1200 in his pocket and access to many thousands more.

### GERMAN ENVOY TO U. S. NAMED

Wiedfeldt Will Represent Berlin at Washington

BERLIN — (Associated Press) — Dr. Otto Ludwig Wiedfeldt has been appointed German ambassador to the United States.  
Dr. Wiedfeldt will fill the post which has been vacant since February, 1917 when Count Johann Helldorf von Bernstorff left Washington, prior to the declaration of a state of war between the United States and Germany.  
Since the resumption of normal relations between the two countries the question of naming a new ambassador has been one of the knottiest problems confronting the German government. In addition to diplomatic experience it was necessary that the incumbent be wealthy as the exceedingly low value of the German mark will place him at a financial disadvantage in the American capital.  
Dr. Wiedfeldt is fifty years of age and one of the foremost German industrialists and economists. He is reported to have been released from his position at the head of the directorate of the Krupp works so that he might accept the post.  
Dr. Wiedfeldt is reputed to be one of the wealthiest Germans at the present day. He is an experienced diplomatist, having for years occupied important positions in the German home office. He also spent about three years in the Far East as consulting expert to the Japanese government in connection with the organization of its railway system.  
On his return to Germany from Japan shortly before the world war, he spent three months traveling in the United States.

### JURY COMPLETED

Panel for Trial of Tex Rickard is Chosen

NEW YORK — (Associated Press) — Selection of a jury to try Tex Rickard on a charge that the widely known sport promoter had criminally assaulted 15-year-old Sarah Schoenfeld was completed this morning. The court then was adjourned until the middle of the afternoon in tribute to the memory of Supreme Court Justice Hotchkiss, whose funeral takes place today.  
According to Gug Bogart, executive secretary, an invitation has been sent to Dr. Peebles and his acceptance received from the next world.  
Bogart said that Dr. Peebles explained he was being feted in heaven on the same day, in honor of his earthly centenary but would make every effort to attend both functions.  
A cover will be set for Dr. Peebles and a place reserved for him in the speakers' circle. He will be invited to speak a few words.

### DAWSON, KIPKER CALLED IN

Manager Not Satisfied With Report of City Car Crash

QUIZ AT 5 P. M. TUESDAY

Bingham of Opinion There Has Been Misrepresentation

Chief of Police Morton F. Dawson and Detective Willis Kipker, are to be questioned in person at 5 p. m. Tuesday, regarding the wrecking of the police car five days ago, Manager C. A. Bingham declared.  
Bingham expressed dissatisfaction with the explanation offered concerning the affair and at the delay occasioned in its reaching his hands.

### KIPKER TO BE CALLED

"I am going to call Kipker in," he said, "and talk the matter over with him. There is still something about this that is not clear."  
Manager Bingham received a written explanation of the accident from Detective Kipker, late Monday, following his return from the east. The report, dated March 16, in brief, it states that the writer was called to the vicinity of St. Ross church and returning after a fruitless search, had trouble with the clutch on the car. The gates at the Pennsylvania crossing were down, and he could not stop.  
Accompanying the report was another account compiled by Chief Morton F. Dawson, from his investigation of the matter. It goes into the matter more in detail and tells of the car hitting a telephone pole and knocking the rear tire off, and then running away. This communication is dated March 17.  
Manager Bingham stated he will go to the bottom of the matter. He expressed the opinion that an effort had been made to misrepresent matters to him and he wants to find out why.

### BINGHAM PUZZLED

"I cannot understand," he said, "why Kipker should have driven away afterwards."  
What the result of his investigation will be, Bingham could not predict. Both Kipker and Dawson were recently on the carpet as a result of other complaints brought to the attention of the manager. The complaints, it has been learned since, are in the form of affidavits.  
At the time, it is said, Kipker offered to resign, if it would help the department, but would not do so if the complaints were petty matters.

### MAN NEVER KISSED DISAPPEARS

Charges Snuggle Puppington at Michigan University, Flees

ANN ARBOR, Mich. — (Associated Press) — Co-eds and male students of the University of Michigan today are combing Ann Arbor in search of the "man who has never been kissed," identified as William D. Ogden, of Toledo, it was Ogden, the students say, who has aroused the entire student body and professors by his recent article in the university daily, charging that "snuggle pupping" and "petting" are rampant on the campus.

Meanwhile the student so much sought has disappeared. He has not been seen at his fraternity house for several days, in fact not since the article was published, and fraternity brothers express the opinion he has secreted himself to escape possible injury at the hands of the irate university citizens. The article, signed "the man who has never been kissed," charged that "dormitory and sorority parlors were petting havens" and that "feminine modesty is a thing of the past."

Hardly had the ink become dry on the college magazine when the storm broke. The charges have become the sole topic of conversation on the campus and in places where students gather. Letters of protest that style the statements as "faux-dieed cynicism," "jack-assery," "mental dyspepsia" or "sheer boobyery" are flooding the college daily.  
Officials of the university are remaining aloof from the upheaval. President Marion Leroy Burton when asked if an official investigation was contemplated by him, declared "snuggle pupping" is a phase of college life I am ignorant of. I consider it beneath the dignity of a university president to discuss such a thing."

Heads of various university women's activities were a unit in branding the charges as false. "Tommy rot" and "rubbish" were some of the words they used.  
NEGRESS WINS FORTUNE  
NEW ORLEANS — The supreme court has again decided in favor of Lillie G. Taylor, negress, recently awarded title to all lands in Calcasieu Parish, Louisiana, valued at approximately \$20,000,000. Frances Scott Glenn, negress, of Memphis, Tenn., claiming to be a daughter of Lona McGhee, Lillie's mother, by a former marriage, sued for half interest in the property claimed by the Taylor woman. Her claim was disallowed.

## SANDLES SPEAKS TO KIWANIS

Urges Cooperation to Remedy Existing Bad Conditions

PLEADS FOR AID TO FARMER

Too Many Laws, Not Enough Enforcement, He Says

Declaring that it is the duty of every citizen of this country to put his shoulder to the wheel and assist in remedying conditions existing today which he said are endangering the foundation of our government, A. P. Sandles, Ottawa, made a stirring address before the Lima Kiwanis club at its luncheon, Tuesday.

Among the dangers mentioned by Sandles were: The wave of crime which is sweeping the country; moving of farmers from the country to cities and towns; bad roads and admission of immigrants who make trouble.

Sandles opened his address with his usual questionnaire, including questions something like these: "How many here were born in Lima?" "How many here ever lived on a farm?" "How many here ever had a fight at school?" etc.

**URGES COOPERATION**

He spoke of cooperation and the last address of President McKinley which was based on the text: "Cooperation is better than cutthroat competition."

He declared that we have too many laws and too lax law enforcement. He advocated a plan of repealing two old laws every time one new one is enacted and abolishing two payroll jobs in government every time a new one is created.

He declared the migration of farmers to the city "where they can hear their heels hitting the sidewalk between supper and bedtime." Overcrowding of cities, he said is the chief cause of the crime wave which has been taking an appalling toll in life and property.

**ROAD BUILDING ADVOCATED**

Sandles urged city folk to assist in bringing about conditions that will keep more farmers on the farms. One of the biggest services along this line, he said, would be cooperation in building roads so farmers will have a better outlet to markets. He suggested that instead of the plan usually followed by cities in connecting with other cities by fine roads, money spent be used in reaching out in more directions to assist the farmer and consequently, the city dweller.

While he did not touch on politics and was highly complimentary to a large number of famous Republicans of the past and present, causing one Republican politician to say that "Put is getting to be a better Republican every day," he urged his audience to pay particular attention to the election of congressmen and senators this fall who will stand for strict immigration laws and the barring of trouble-makers.

Arrangements were made by the Kiwanis club for the Inter-city meeting to be held here next Tuesday. There will be no noon luncheon, but a big sing meeting at the Elks Tuesday evening.

The club accepted the challenge of the Toledo club for a bowling match that day.

One new member, Sherman Claus, of the Lima Locomotive Works, was elected.

## SNOW FEATURES SPRING OPENER

Cessation of snowfall, which featured the departure of winter and the official arrival of spring on Tuesday, is promised soon, according to the prediction of the weatherman.

Generally fair to night and Wednesday; continued cold tonight, slowly rising temperature Wednesday in west and north portions.

If there is a great deal of "first day of spring comfort" in that sort of prediction, you are welcome to it.

All over northern Ohio winter's departure was accompanied by snowfall, which melted almost as quickly as it fell, in city streets, but still lingers in other open places.

Long range forecasters have it that clearing conditions are due on Wednesday. Consequently, there is little hope for the snow to long remain.

Spring conditions are due to return quickly.

## LIMA QUINTET TO GO ON TRIAL

Theft of Pigiron Charged—Cases Open Wednesday in Toledo

Beginning Wednesday, five Lima persons will go on trial before Judge Kilts in the Federal court at Toledo in connection with a series of thefts from an interstate shipment of pig iron from the L. E. & W. railroad here in January.

George L. Morningstar will go on trial at 9 a. m., Wednesday, and the others to follow are Harry Berli, Albert Victory, Howard Van Horn and Alex Miller. Van Horn was captured in Springfield Tuesday morning after skipping bond of \$300.

All but Miller are charged with the theft of the pig iron, which totaled ten tons, according to railroad detectives. Miller is accused of conducting a fence for the alleged stolen property. Van Horn has not yet been arraigned, owing to his disappearance, but he may be presented in court Wednesday. It is said his plea will be the same as the others—not guilty.

Ford Cole and William Thomas, L. E. & W. detectives; J. W. Sherry, master of the city market, at the rear of which Miller has his junkyard; Mr. and Mrs. Carroll Beckman of the Belmont addition; W. H. Reed, L. E. & W. freight house man and C. E. Gerdeman, Tipton, Ind., in charge of the police force of the railroad, will be subpoenaed to appear as witnesses.

She says her husband mistreated her to the point that he broke the bones in her left wrist, interfering with her ability to do the work in her rooming house. She charges failure to provide. The couple were married on May 18, 1920, and have no children.

## STYLE SHOW WEEK OPENS TUESDAY NIGHT IN LIMA

Tuesday night, Style Show Week will be inaugurated in Lima, with the unveiling of display windows of downtown stores.

There is always something new under the sun, merchants assert. They believe the public will be convinced on that score after witnessing the new style creations to be presented.

There has been excellent co-operation in planning and arranging for Style Week and merchants anticipate a most successful event. Large numbers of people are expected to be downtown tonight, to get first views of the displays in the show windows.

The state of the weather is not expected to interfere with plans of merchants or citizens.

## ALLEN-CO PROJECT IS CANCELLED

Bids Not Received on Westminster-New Hampshire-rd

OFFERS MADE ON ELIDA-RD

Napoleon Company Believed in Line For Contract

Letting on the Westminster-New Hampshire-rd, for a paving job was cancelled by the state highway department, for unknown causes, it was learned Tuesday.

County officials are at a loss to understand the reasons advanced for not selling the road. All legislation is completed and the bonds issued to raise the county's half have been sold.

Nearly five miles of state aid construction on the Lima-Delphos-rd was sold, however. It comprises the so-called Elida-rd.

**NAPOLÉON MEN BID LOW**  
Westrick-Krauss & Shroes, of Napoleon, may be awarded the contract on the basis of being low bidders.

Three types were bid on by the company and according to word from Columbus, they were low on asphaltic-concrete with a bid of \$110,058.55. The estimated cost of the work had been \$127,123.61 for much less expensive types.

The same firm bid \$107,560.94 on Kentucky rock asphalt and \$485,191.01 on bituminous macadam. The state highway department has apparently selected asphaltic concrete as the type it desires to use.

Cost of the road will be much less than a year ago and the department can use better material, it is stated.

A year ago, Van Wert-co spent \$40,000 a mile for Kentucky rock roads. Bids on this material Monday were under \$25,000 a mile.

**DEPARTMENT OPPOSED**  
Cancellation of the Westminster-rd is ascribed by road men to opposition of the highway department to building it. The department has always been against this road, it is claimed because it does not connect with any of the big cross state roads.

Commissioner Herlick is striving to put across.

Another theory advanced is that Allen-co has twice the allotment for roads granted to other counties and the department may be trying to trim the program.

A number of Lima contractors bid on the work.

## CUPID TAKES VACATION AS KING WINTER RETURNS

Dan Cupid is in the same mood as the ordinary pedestrian who braves this spring-winter weather.

Not a thing has been seen of Dan about the court house since last week. Miss Jessie Miller, special envoy for the little love god in the Allen-co temple of justice, can give no account of him.

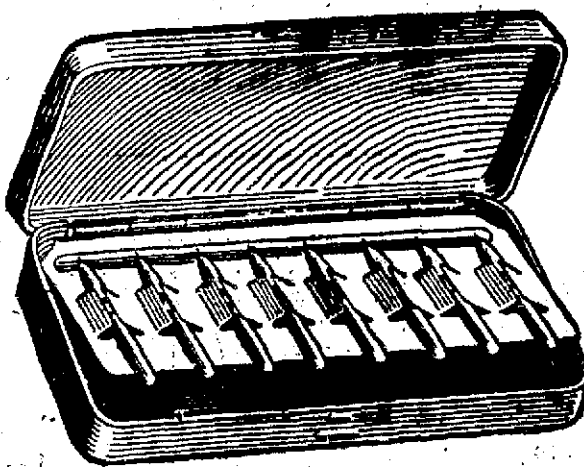

For the first time in many weeks, none of the little love god's proteges appeared Saturday to seek a license. No licenses were issued Monday and up to Tuesday afternoon, Dan Cupid was still absent from the court house.

Miss Miller takes consolation, however, in the fact that warm weather and bright sunshine will bring him back.

## Important Notice

The virtue of this tungs-tone needle lies in the material of the very small point. These points are phenomenal. They are from 100 to 200 times stronger than steel in playing a record, but can be more easily bent by careless handling. Instructions are easy to follow.

## THIS KENTUCKY FEUD IS REALLY FAMILY AFFAIR—NEWS PICTURES OF THE DAY

JOSEPH LENAHAN (LEFT) AND HIS WIFE AND FAMILY

LOUISVILLE, Ky. — There's a new "Kentucky Feud" on here. It's different from any you've ever read about. The object of the old-time feud was to kill folks off. This feud aims to bring 'em into the world. It's a real family affair. The principals are two brothers, Charles and Joseph Lenahan. When the brothers married Charles said to Joseph: "Bet I'll bring up a bigger family than you will!" And Joseph said to Charles: "Bet you won't!" Today each brother has 11 children.

When Robert Leo was born in Charles' home two months ago, the Charles Lenahans stepped into the lead. But a month later James Patrick arrived at the Joseph Lenahan home to even things up once more.

## HOUSE VOTES ON BONUS THURSDAY

Bill to Be Put Thru Under Suspension of Rules

WASHINGTON—(United Press)—The soldiers' bonus bill will be shoved thru the house Thursday, under "suspension of rules" with four hours' debate, under an arrangement made today by Speaker Gillett and Chairman Campbell of the rules committee.

Under this arrangement the bill will be jammed thru without amendments and without any motion to send it back to the ways and means committee.

The only difference between the Thursday plan and the method which the bonusers hoped to take yesterday is in the lengthened debate. The original "gag" plan would have given only 20 minutes discussion. This new agreement will permit of two hours for advocates of the measure and two hours for its opponents.

A vote on passage will then be taken. The bonus leaders claim to be sure that this will be in favor of the bill.

## SQUABBLE OVER JUROR HALTS ARBUCKLE TRIAL

SAN FRANCISCO—Whether to remove juror Edward W. Brown was the first thing before the court today in the trial of Roscoe C. (Pat) Arbuckle on a manslaughter charge. Brown's removal was sought yesterday by Assistant District Attorney Friedman on the ground of bias and prejudice, although the juror had been finally accepted and sworn. Friedman in an affidavit stated that Brown, a grocer, had twice been prosecuted for alleged violations of the state pure food laws and that he held a prejudice against the prosecution on that account.

Gavin McNab, defense attorney, maintained a juror finally sworn and accepted could not, except in violation of the law, be removed, "even if it developed he were the defendant's brother."

The Brown development halted the selection of a second alternate juror and the starting of testimony. Judge Harold Louderback was to make his decision in the case of the juror today.

CHICAGO—The local plant of the United States Industrial Alcohol Company today was temporarily closed by federal prohibition officials pending an investigation to determine if the company has violated the laws pertaining to manufacture of alcohol.

POLITICAL BATTLE ON THURSDAY

North Dakota Nonpartisan League to Decide Course

ORGANIZATION IS DIVIDED

Split on Question of Putting up State Ticket.

FARGO, N. D. — (Associated Press) — Members of the Nonpartisan League, delegates selected at the county conventions of the party will meet here, Thursday to decide the first statewide battle upon political balance of power plan suggested to the league by A. C. Townley, president of the National Nonpartisan League, and one time dictator of the league policies in this state. This plan contemplates dropping of candidacy for political office by the league members and their support of such candidates of the regular parties as the league leaders decide upon.

ACTION IN DOUBT  
The first time since the league swept into power in this state in 1916, the action of the convention is in doubt and this doubt is occasioned by a division in the league forces between the followers of Townley and the followers of the executive committee of the league. Aligned with Townley is J. N. Hagen, former Commissioner of Agriculture and Labor. Another group aligned against the majority of the executive committee is William Lemke, for eleven months attorney general of North Dakota, Walter J. Maddock and R. H. Walker but these three men have not announced that they will be with the Townley group in the support of the balance of power plan.

Against the Townley and the Lemke forces are the members of the executive committee who have aligned themselves with A. A. Liederbach, chairman, and who have on their side the strategic advantage of physical control of the Courier News, the official League newspaper, Al the Mr. Townley and his friends have possession of the stock. The Liederbach faction also have possession of the league machinery and have sent out calls for the township conventions and announced the dates and the places of holding the county and state conventions.

Following the organization, the convention is slated to take up question of the balance of power, which will decide whether the league will put a full ticket into the field for the state wide primaries to be held June 28.

WEALTHY GIRL MISSING FROM UNIVERSITY IS FOUND WORKING AS COOK

CHICAGO — Miss Edna Emma Taylor, University of Chicago co-ed, failed today in her attempt to "get away from the sham and see the seamy side of life."

Miss Taylor, daughter of Alfred H. Taylor, wealthy New York architect, was found by detectives after she had been missing four days.

"I don't see why they bothered me," she said. "I was all right. I just got tired of books and studies. I wanted to write but first of all had a desire to see life."

Miss Taylor was found working as a cook in a home near the campus.

She was back at her books today.

**A Sure Way To End Dandruff**

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

MRS. LUTHER BURBANK ILLUSTRATES HER HUSBAND'S GARDEN TIPS.

(BY LUTHER BURBANK)  
World's Greatest Scientific Agriculturist

Spade your ground early! This is of vital importance. Remember that texture in the soil is probably as important as all the other things put together.

So spade your ground early and let it rest. Work in a little stable manure and some sifted ashes, or leaf mould is good. But LET THE GROUND REST!

I stress these points for this reason: with your soil once loosened and ready, the air should be allowed to get in. This gives the soil life. Soil needs air just as do humans. The air MUST get down and be ready for the young roots. A little time is necessary for the soil to get full advantage of the air.

Too many beginners turn their soil and immediately start to plant. Don't begin making use of the earth the moment you have turned it over. Give the soil a chance and your garden will be the better for it.

Tomorrow Burbank discusses "Plant Needs."

FARMS NOW RUN BY ELECTRICITY

Modern Methods Almost Wholly Adopted in Sweden

FIRE WOOD NOT CUT BY HAND

Threshing and Other Machines Driven by Current

STOCKHOLM — (Associated Press) — Electricity has conquered one-third of the entire cultivated area of Sweden, according to the latest official reports.

If Sweden continues electrifying at the present rate, it will only be a few years till almost the whole country will be run by electricity.

Most of the farms within the electrified area are now tapping the new sources of energy, and nearly all the power used in the daily labor on these farms is derived from the high-power lines which span whole sections of the country.

**LARGE POWER STATIONS**  
Large power stations deliver most of the electric energy used in the rural communities; but in many places the farmers themselves have installed turbines and built private power stations, harnessing for this purpose swift streams and small waterfalls on their own properties. These enterprises, however, are generally co-operative.

A great deal of the most arduous farm labor is performed by electrically-driven machinery at a cost far below the cost of machines propelled by steam or horse-power or of hand labor. Water is pumped for cattle by electricity, threshing machines are driven by electric current, timber is sawed by motor power and farm heads are no longer ordered to cut firewood by hand because it is cheaper to have even that labor done by electricity. Candles have almost disappeared.

In many cases grain is dried and cleaned by being passed thru electrically-driven hot-air fanning machines.

**GOOD FOR THAT "FLUE" COUGH**  
For quick relief from the wearing coughs that "hang on" after the grippe or influenza, take Foley's Honey and Tar. Mrs. K. D. Drake, Childs, Md., writes: "After an attack of the flu that left me with a severe cough nothing seemed to relieve me until I tried Foley's Honey and Tar, which I can highly recommend." It is also good for croup, whooping cough and colds. It puts a soothing, healing coating over the inflamed surfaces, cuts the phlegm, eases hoarseness, clears the air passages.

## STRIKE VOTED BY BIG MAJORITY

WILL CLOSE 7,500 MINES

Union Chiefs Say 600,000 Coal Diggers Will Quit

95 Per Cent of Miners Cast Ballot For Walkout

(By IRED G. JOHNSON)  
INDIANAPOLIS (United Press)—Nearly ninety-five per cent of the 700,000 union coal miners in America favored moving down their picks April 1, to force mine owners into wage scale conference.

Count of the strike vote in progress at United Mine Workers headquarters here today showed a greater majority favoring the suspension than was anticipated. It was learned that 95 per cent of the union were tallying the vote from Illinois, the largest district in the union. The three anthracite districts centering around Scranton, Hazleton and Shamokin, Pa., piled up a majority for the suspension along with the bituminous districts; Ohio, Indiana, central Pennsylvania, Washington and the Pittsburgh and Brazil, Ind., districts.

The overwhelming majority from these districts cannot be overcome in the vote yet to be counted.

**UNION FORECAST**

Anthracite non-union workers will join the union men in the strike, according to predictions at union headquarters, making a total of approximately 600,000 men idle at April 1.

Six thousand of the nation's 7,500 mines will be closed when the operators and miners go to the mat. Their fight is directly over the operators' refusal to negotiate a new scale to supplant the one expired March 1, but it indirectly involves the miners' demands for a six-hour day, five-day week and the operators' position for lower wages.

Striking miners will not receive strike benefits from international union, but local and state unions may help them financially. Union chiefs composing the policy committee will meet in Cleveland next Friday to formulate strike policies.

## VERDICT OF "NO CAUSE OF ACTION" IN DAMAGE SUIT AGAINST JOHN MACK

That a pedesman who wanders in front of a fire chief's auto enroute to a blaze, isn't entitled to damages, was the way a jury in common pleas court, viewed a \$10,000 damage suit brought by James Stumbaugh, laborer, against John Mack and the City of Lima.

After hearing the evidence and arguments the jury's verdict was no cause of action.

Stumbaugh was crossing High-st at McDowell, January 4, 1921, when Chief Mack ran into him enroute to a fire Stumbaugh was severely injured.

## LODGE PROPERTY TAXABLE, ATTORNEY GENERAL RULES

Holding that Sections 5364 and 5365-1, Ohio statutes, are unconstitutional, Attorney General John G. Price has ruled that lodge property should be placed on the duplicate, for taxation, the same as other property. County Auditor C. R. Phillips has received a copy of the ruling.

If Price's position is upheld by the Supreme court, it will restore to the tax duplicate of every city and town a large amount of valuable property. Attorney Price rules that the real estate belonging to an institution of purely public charity is exempt from taxation only when used exclusively for charitable purposes.

If such real estate is rented for commercial and residence purposes it is not exempt he holds, altho the income arising from such use is devoted wholly to the purpose of the charity.

## CITY CIVIL SERVICE TESTS ON MARCH 29TH

March 29 has been set by Manager C. A. Bingham as the date for holding civil service examinations for various city jobs.

All civil service employees, never previously examined, will be required to take the test. It is said the list includes: Foreman, waterworks department, fireman waterworks, clerk, street department, clerk and phone girl, water office, clerk in water office, stenographer, patrolman, policeman and janitor.

The position of policeman is a new one for the department. Most of the positions relating to the water department were recently placed under civil service to comply with the state law.

## HEAD OF LUMBER COMPANY WILL FIGHT U. S. CHARGE

Entering a plea of not guilty to a charge of making an improper income tax return in 1917, W. C. Slagle, head of the Slagle Lumber Co. of this city will fight the accusation in federal court.

Slagle surrendered himself to a United States marshal in Toledo and was arraigned before Commissioner Games. He was released under \$2,000 bond on March 24.

McClure, head of the company is also under \$2,000 bond on a similar charge and is to appear for trial on the same date. According to government agents in Toledo the Slagle Lumber Co. failed to incorporate \$18,000 earnings in its 1919 income tax report.

## CITY DEFENDANT IN SUIT FOR \$29,000 CLAIMED DUE AS BALANCE ON RESERVOIR

Refusal of the city to pay \$29,000, balance due for the construction of the Lost Creek reservoir, has culminated in a suit to collect the amount filed in federal court at Toledo. The U. S. Fidelity & Guaranty company, Baltimore, is plaintiff.

The guarantee company was surety for the Jones Construction Co., and completed the work on the lake. Thru Elmer McClain, former server, payment on the balance due was refused. McClain contended, it is said, that the company was to forfeit a certain amount because the work was completed late.

No demand had been made on the

new commission, but papers were served on the city manager.

Solicitor Landis was instructed Monday night to take charge of the case and endeavor to reach a settlement without litigation if possible. Interest is demanded on the amount due from June 1, 1921. The city must file answer by April 15.

## OXIDATION PLAN IS FAVORED

Commission Expected to Adopt  
New Sewage Disposal Methods

While no definite action was taken by the city commissioners Monday night, there appears little doubt that all are in favor of the installation of an oxidation process plant for disposal of this city's sewage.

Several of the commissioners said they were sold on the type, following the report made to the commission by Harold Cunningham and Ellis E. Jones.

Plants were visited in Allentown, Pa., and Phillipsburg, N. J. Both are located not far from residences. There is no odor and little residue left, it is said. Lime is used in the process, in connection with electrodes, or plates that break down the sewage.

On the other hand, sprinkler-filter systems were investigated in Plainfield, N. J., and Washington, Pa. There was a bad odor about the plant, the commissioners said and they were told that flies in the plant are a terrible scourge in summer.

Water from the oxidation process is as clear as crystal after a few min-

utes of treatment. In the other type, it carried away sediment, the commissioners reported.

The commissioners who made the trip returned convinced that the oxidation process is the only one practical.

Complete plans for a plant are to be sent here and on Friday the matter will be taken up with engineers of the state board of health.

A plant of this type, can be operated, the commissioners were told, for \$23 per million gallons. Lima can save considerable money on the installation and several thousand dollars annually on operation, it is asserted.

A communication received from the Allen-co Bar Association relative to establishment of a U. S. District court in Lima was received and Solicitor Paul T. Landis instructed to prepare a resolution endorsing a bill now before congress.

Two year notes amounting to \$3,602.30 will be issued to enable the city to proceed with underground work in five streets, recently authorized. The work will be done under supervision of the city engineer. A resolution from residents of Kenilworth-av, asking that the streets be paved from Allentown-rd to the north city limits, was tabled.

## G. O. P. STATE PLAN HIT BY SMITH

Secretary of State Opposes Pre-Primary Convention

### REORGANIZATION FLAYED

General News Items Gathered From Ohio Cities

**COLUMBUS**—(Associated Press)—Belief that at least three Republicans, Secretary of State Harvey O. Smith, Carmel A. Thompson of Cleveland and Congressman C. B. Knight of Akron, will announce themselves as candidates for the nomination for governor within a few days, was expressed by Republican leaders here today.

Secretary of State Smith in a statement as good as said he will be a candidate. Mr. Thompson, at Ash-tabula yesterday, said he was of the opinion that the Republicans should canvass the state to determine who they want as their candidate, adding that if "sentiment crystallizes on me, I will be pleased to accept the honor." Congressman Knight, according to word from Washington, may announce his candidacy today.

### SMITH'S STATEMENT

Judge Smith's statement said in part: "The people of Ohio, under the constitution, provided the method for the selection of candidates for public office. So long as that constitution is in effect, it is the law in this state, and as I am a firm believer in a strict adherence to the law and the constitution, when I announce my candidacy for governor, it will be with a full understanding of the provisions made for the nomination of the candidate for governor, and it will be with a willingness to submit my candidacy to the people who made it the constitution."

### CODE FLAYED

A. V. Donahay of New Philadelphia, the only Democrat who to date has announced his candidacy, addressing the Stark-co Jefferson club at a banquet at Canton last night, flayed the reorganization code, declaring it a menace to the health and safety of the people. "When the taxpayers pay their June tax they will have contributed \$6,000,000 more than they paid the previous year, to try out an experiment, conceived and forced upon them by the Republican bosses in the interest of machine politics," he declared.

### Makes a Family Supply of Cough Remedy

Really better than ready-made cough syrups, and saves about 50%.

Easily and quickly prepared.

If you combined the curative properties of every known "ready-made" cough remedy, you probably could not get as much real curative power as there is in the simple home-made cough syrup, which is easily prepared in a few minutes.

Get from any druggist 2½ ounces of Pinex, pour it into a pint bottle and fill the bottle with syrup, using either plain granulated sugar syrup, clarified molasses, honey, or corn syrup, as desired. The result is a pint of really better cough syrup than you could buy ready-made for three times the money. Tastes pleasant and never spoils.

This Pinex and Syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the nasty throat tickle and heals the sore, irritated membrane so gently and easily that it is really astonishing.

A day's use will usually overcome the ordinary cough and for bronchitis, croup, hoarseness and bronchial asthma there is nothing better.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, and has been used for generations to break severe coughs. To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

## WORN OUT AFTER SHE COOKED A MEAL

Took Lydia E. Pinkham's Vegetable Compound—Read the Result

Cincinnati, Ohio.—"I suffered for a year with nervous troubles and irregularities before I took Lydia E. Pinkham's Vegetable Compound. My back pained all the time and I was unfit for housework. I was worn out if I cooked a meal, and was unable to do my washing. My girl friends and my sister told me if I would take your Vegetable Compound and Liver Pills I would be relieved. After taking the first bottle I felt better, and neglected it awhile, but found I could not do my work until I was stronger. So I took the Vegetable Compound again and now I am the mother of a 19 months old boy. He is fat and healthy and I am sure I could never have carried him if it had not been for your Vegetable Compound. I recommend your medicine to all women although I am young to be advising someone older."—Mrs. CHRIST. PETROFF, 318 W. Liberty St., Cincinnati, Ohio.

Lydia E. Pinkham's Vegetable Compound contains no harmful drugs and can be taken in safety by any woman.

### PARTITION OR SALE OF 180 ACRES IS SOUGHT

Partition or sale of 180 acres of Monroe-tp land is asked in a suit filed in common pleas court by Alice M. Geib against Margaret M. Hofferbert and 12 others.

All are heirs to the property in question, each being owner of a one-fourteenth share. The plaintiff alleges that a number of the defendants are obligated for their share and for this reason asks that her portion be set aside, or the entire tract sold.

## WIFE ACCUSED BY DAVIS IN DIVORCE SUIT ANSWER

Allegations purporting to show that his wife Sarah E. Davis, failed to perform her household duties prior to their separation in July 1921, and charging her with associating with men of bad character, are contained in an answer and cross petition filed in common pleas court by George F. Davis.

Davis denies the charges brought against him in a petition for divorce filed by his wife.

In her petition Mrs. Davis accused her husband of failing to provide a home for her and with non-support. She further averred that he had a number of pieces of furniture in his possession belonging to her. Davis admits the truth of this in his answer, but avers that his wife removed the remainder of the furniture from their home July 9.

Davis was further alleged to have spent his wages foolishly.

### CARELESSNESS — IT'S PENALTY

NO more striking example of carelessness is afforded anywhere than in the large number of grade crossing smashups, where motor cars meet railroad trains or interurban cars, in an unnecessary dispute as to the rights of first use of the crossing.

The toll of human life in grade crossing accidents is something fearful and it goes on day after day. One would naturally think that, as a result of the large number of such accidents, the total would gradually lessen, due to others extracting a salutary lesson from experience. However, there seems to be no diminution of the number of fatalities.

Addressing the noonday meeting of the Rotarians in this city Monday, H. B. Mann, head of the Safety First bureau of the Toledo division of the D. & O. Railroad, stated that 76 per cent of all accidents on American railways are due to automobile drivers failing to heed the warning of "Stop, Look and Listen!"

Ohio ranks second in number of autos owned and is first among all the states in number of grade crossing accidents. Railroad companies are, quite naturally, anxious to cut down the number of crossing accidents, from a humane standpoint and due to the cost of such accidents to them. The gospel of care and caution is being preached all the time, everywhere.

The suggestion has been made—and appears a good one—that a wrecked automobile be placed on a platform near every railroad crossing, bearing a large sign, warning motorists of the danger of carelessness!

### GENERALLY GO BROKE

JOSEPH LEITER, who cornered the wheat market in 1897, testifies in a New York City court that the collapse of his corner left him \$3,250,000 in the hole.

That should interest the boys, who playing the grain market, wish they could engineer a Leiter corner.

Every one knows about that famous Leiter corner. How it turned out for its operator will amaze many.

Spectacular success appeals to the public imagination, sinks indelibly into memory. Too bad, the public doesn't continue watching gambling success until it collapses. It might teach a valuable lesson.

JOE LEITER is recognized as about as good a grain operator as ever lived. He was what business writers call an "expert."

The bigger they are, the harder they fall. Gambling in stocks and grain—that is, plunging in speculation—gets them all. It's only a matter of time.

It gets you faster if you are an outsider, a financial moth.

A GOOD many people watch the stock market as "a barometer of general conditions." Many believe that the stock market is a sort of supernatural ouija board with clairvoyant powers that foresee the future accurately.

The market is supposed to go up or down about three to five months ahead of general business.

This supposition is based on the fact that ticker quotations—when the market isn't a professional one, manipulated to attract the come-ons, show how the big gamblers are betting.

The epidemic of failures among brokerage houses reveals that, in the long run and on the law of averages, the gambler's guess is worth just about as much as the sheep's—no more.

## 'ROUND LIMA HOUR BY HOUR

—WITH APOLOGIES—

BY OH, OH, JACKENRY  
A Page from the Diary of an Antiquated Reporter. Up very betimes, and being Lord's day busyd myself putting things in order against anon, and to re-read carefully the warning in Genesis 12:

### ABE MARTIN

Life had is sellin' stock in a company that's make quick silver for movie stars. If mother ever gets a six-hour day somebody's goin' to go broke payin' for overtime.

12-21. Much strengthened there by my refusal not to taste nor yet accept the proffered gift of an old colored frynde, whose ancestors came from Rheims.

Thence, belowstairs, this the morn for clean linens, distill enjoy a breakfast on radishes and rasher of bacon, all the southern fruit having long since vanished. And the crate contained not what some others had hoped. So into the Circulation coach, it being my day to use it for pleasure purposes. So for physical culture distill drive to Elizabeth and spent a full half hour shooting the chutes on that thoroatic between Wayne and the Pennsy. The sensation is as whole some as a sea voyage, and much cheaper. The Ford did nobly well, and you get no sideswings like Cantilevers give you.

So home feeling fit, and as have as a new member at the hakespeare club. To lunch on elected foods passed upon by the American Can company, with last night's remains of bovine roast. These I trust, saying I to my wife, poor wretch, presiding in balofut quietude at the obsequies, being the last sad rites. Over the coffee, and to her, read "Crossing the Bar" and we began talking plans for the summer. Like the architect's, the March estimates never balance with the June quotations.

And being Sunday the spare-room came up again. I am weary of buying carpet by the yard and wearing it out by the foot.

In the late afternoon, cranked up Old Circulash again, and with my wife drove about the town, escaping from the grinding gruel of life indoors to the calm lakes on West Elm and the quiet lagoons of east North. Thence into the aristocratic atmosphere of refrigerant west end, and "Bal" Henderson scarcely spoke. He may think he made it in better than 61, but he did not Jim Dugan, down in the dumps because Davis refused to take a beating, drove by his never hesitating and he was so sweet to me when he was motormanning for Kestev Schoepf.

In the evening, a supper on dried apricots sent by some Californian enthusiast. Wonder if it were Bob Thrift. With a beaker of Kominsk 'alf-and-'alf they make a swell meal. So to the Faurot to see Lionel selling bananas, and compare his Boomerang Bill to his "The Claw." He never was so worshipped by the adored sex as Matinee John, but the Barrymore and Drew blood always blends into a stage cocktail both entertaining and the last work in art.

So home to a placid hour. Albeit, I put to carry down the wash and put in last week's pajamas.

### HORSES

SOME one with a pocketful of sharp pencils has figured out that the autos used in our country have a power equivalent to more than 300,000,000 horses. Or, in round numbers, three horses for every man, woman and child.

This shows how machinery concentrates and multiplies human energy in production. In many commodities, the introduction of machinery has not lowered price much in the long run. But it has multiplied the commodities available for the average person—increased the standard of living.

### NEWSPAPERS

IN two months more than 150 newspapers have suspended publication in Germany, on account of the high price of paper. This is the worst form of social decay. The whole structure of civilization rests on the printing press.

Newspapers are run by human beings who are apt to make mistakes, like every one else. But eliminate all the newspapers and human intercourse and knowledge of far-off occurrences would practically cease. Wouldn't take many years of such a condition to turn the clock back several centuries.

THE RETURN  
I've rested and frolicked and frolicked  
In Dixie-land's sunniest clime,  
I've feasted and rambled and rollicked  
And had a most marvelous time;  
But now that the season is finished  
And people are ceasing to roam,  
The idlers are greatly diminished—  
And I'm going home.

There may be some folks who are  
Frustrating  
Because they're called back to the  
grind,  
Who waste many moments regretting  
The playground they're leaving behind,  
For some people groan at endeavor  
And hate it with hatred profound  
And wish they could stay on forever  
Just loafing around.

But when I know duty is calling  
And beckoning me to my job,  
To join in the labor outthrusting  
That keeps life intense and aloof,  
Do I envy those who are slaying—  
The idle, improvident few,  
Who keep right on cheerfully play-

You said it, I do!

### MINISTER'S CHRONIC INDIGESTION HELPED

Advises Stomach Sufferers to Use

In an open letter addressed to "Fellow Sufferers from Indigestion" he writes: "I would advise and urge that any person suffering from the many sorts of indigestion proceed at once to give Jacques' Little Wonder Capsules a fair, thorough trial. ### HEALTH TALKS

Common Sense Ways to Keep Well.

WAR ON DRUGS

The present hubbub over the drug traffic brings to mind the fact that a great many of us are drug addicts. I do not mean a large number are taking cocaine, morphine or like drugs, but the most of us have the habit which calls for a stimulant at more or less regular intervals.

"Headache powders," liver pills and alcoholic beverages—some people still drink the last—are stimulants of the sort which do not affect one immediately but gradually dull the nerves.

The drug, after affording temporary relief, may mask the true source of the pain and, in acute emergencies, prevent the physician from rendering an accurate diagnosis.

A drug is, as a rule, a crutch to help the sufferer over a difficult situation; when used otherwise, it becomes a weapon turned against the user.

One who constantly resorts to drugs will find that the system is losing its responsiveness and it requires a constantly larger dose. Many ordinarily harmless remedies when taken habitually will lose their effectiveness. Laxative drugs, as liver pills, may be taken in large quantities until the bowels refuse to operate and the time will come when they are without effect.

Many "headache powders" contain powerful heart depressants, coal tar products and acetanilid. These drugs were first thought to be harmless, but many cases of death from overdoses and from heart depression have proved them otherwise.

For a nervous headache, rest and sleep in a darkened room are sufficient without aid of drugs.

Persons with attacks of "nerves" and sleeplessness often resort to opiates and sleeping powders. Tho in some stages of disease, sleep induced by narcotics is necessary to life, the sufferer from insomnia who resorts to self-drugging is indulging in a dangerous practice.

### Increases the action of the intestines

Hundreds of men and women have already found freedom from laxatives by eating Fleischmann's fresh yeast.

Doctors are now agreed that proper elimination of waste matter should be brought about by food. One doctor comes right out and states plainly that the indiscriminate use of cathartics is one of the causes of constipation.

Physicians all over the country are recommending Fleischmann's fresh yeast because it is a fresh food, rich in those elements which keep the intestines healthy. In a series of tested cases, normal functions were restored in from 3 days to 5 weeks.

Try it out for yourself. Begin today by adding 2 or 3 cakes of Fleischmann's Yeast to your everyday diet. Keep it up and see how normally and regularly your intestines act. Be sure it's Fleischmann's Yeast—the familiar tin-foil package with the yellow label. Place a standing order with your grocer.

### HOW TO GET COLORED CLOTHES CLEAN WITH OUT FADING THEM

Colored clothes seem to get more than their share of dirt. Play-clothes the children romp in—colored shirts and overalls the men work in—house dresses and kitchen aprons.

Haven't you done three-fourths of your washboard rubbing on those things? Rubbed till the color came out with the dirt?

Don't rub them again. Just soak them clean in Rinso suds. A half hour in these big lasting suds gently loosens all the dirt without weakening a single thread. Only the worst spots of all need a light rubbing. Try a little dry Rinso on these.

Rinso, the new kind of soap, is replacing bar soap in American homes.

## ATKINSON MAY BE PROSECUTED

Charge of Embezzlement Is Dropped, Then Reconsidered

Officials of Christ Church, Episcopal, decided at noon Tuesday to withdraw a charge of embezzlement against James Atkinson, 35, former Sunday school superintendent, but later reconsidered and he will likely be held. Atkinson is alleged to have absconded with \$168.00, collected from persons who advertised in a church bulletin, for which he acted as collector. Atkinson was taken in custody by Chicago police Monday night and an indictment filed against him in criminal court. Preparations were being made by police to send an officer for him Tuesday, when the church officers came to their decision. According to word from Chicago, Atkinson employed an attorney who began habeas corpus proceedings in his behalf. The accused had been a Lima resident since July. He was employed with a Milwaukee firm of novelty advertisers. A week ago he took his family to Chicago and came back here to supervise packing of the household effects, Monday. He was an official of the Christ Episcopal church and was actively identified with social affairs here. An adjustment will be made between the church and the publishers of the church publication. The latter filed the affidavit, but placed the matter of prosecution entirely in the hands of the church officers.

## ARREST OF PARENTS IS THREATENED BY OLES

YOUNGSTOWN — Mayor George L. Oles has threatened to jail parents who fail to keep their children at home after 8 p. m. "I'd rather arrest the parents than the kids," he said. "Fathers and mothers who have so little regard for their children that they permit them to run the streets at night are far more guilty than the children in my opinion." "When we take the children home, and find the parents away, skylarking and having a good time, we'll use the patrol wagon to bring the parents in and we'll put them in the lockup and keep them there until morning." "The time to nip outcroppings of criminalism and had citizenship is in the short pants stage. I was going to say the short skirt stage, too, but I remember now that some ladies of rather advanced years wear skirts quite as short as those worn by ten-year-olds."

## VANHORN RETAKEN

Alleged Bail Jumper on Theft Charge Caught in Springfield

Detective Ford Cole of the L. E. and VanHorn, 21, wanted for jump and W. Railroad force captured Howard bond of \$300 under a charge of stealing pigiron from the railroad. The arrest was made Tuesday in Springfield. VanHorn was arraigned before U. S. Commissioner H. D. Grindle here the latter part of January, accused of complicity in stealing ten tons of pigiron from an interstate shipment consigned from the Ford Motor company in Detroit, to Muncie, Ind. He pleaded not guilty and was placed under \$300 bond. He disappeared soon afterward, Cole says, and was since heard of in Cincinnati and Springfield, but he kept under cover. VanHorn had a job as teamster in the latter city. According to the L. E. & W. man, VanHorn was connected with Harry Bert, Albert Victory and George Morningstar, Lima men, who were also indicted by the Federal grand jury at Toledo for the theft. ## PROPOSED LIMA CODE IS PRAISED BY LUMBERMAN

Strength and quality of lumber used in buildings should be specified in Lima's new building code, members of the Ohio Lumbermen's association of the 22nd district were told at the Barr hotel Monday night by A. J. Laist of Washington, of the National Lumber Manufacturers' association. Laist told the dealers that strength and quality are what make a frame building. Moreover, he declared, good lumber to be more fire resisting than poor. Laist complimented the proposed code, saying it is one of the best he has examined. About 20 lumbermen were present at the meeting. Norris Monroe, Celina, president, presided. J. Kennard Johnson also gave a short talk.

## INSURANCE AGENTS IN COURT SUIT EFFECT AN AMICABLE ADJUSTMENT

The case of The Courtard-Zeitze company against J. L. Thompson, wherein Waldo Sidney Courtard and Fred W. Zeitze sought to prevent Thompson from selling life insurance, has been settled out of court and dismissed. The petition stated that Thompson had disposed of his business to Zeitze and had promised to discontinue with seeking insurance writing for a stipulated period of years. An injunction, preventing Thompson from so doing, was granted the Courtard Brothers and Zeitze, but this was dissolved with dismissal of the suit. Zeitze had formed a partnership with the Courtard Brothers after making the purchase and they were joint plaintiffs with him in the action.

## LEGION MEN MAY MAKE DEMAND

Preference for Service Men in City Work Sought

Demand may be made soon upon City Manager Clarence Bingham by the American Legion, that former service men be given preference for employment on municipal work. A petition to the commission of this nature was to have been presented at a recent meeting, according to Frank H. Hume. Because of other matters, however, it was not taken up. Action of some character, putting Paul Gallagher Post on record, may be taken at the next meeting, he said. It will be presented to the manager for consideration. Although no formal action was taken, thru Commissioner John Harley, the lone war veteran in the administration, a request was made of Manager Bingham that veterans be given first chance when work opens up. Many of them, according to Harley, have been unemployed for more than a year. Not a few are in actual want and their families suffering. Most of them came home from war with depleted finances and after a few months' work, declining business forced them into the ranks of the unemployed.

## SOCIAL SERVICE BUREAU PLANS DRIVE FOR FUNDS

Unless finances can be secured, the work of the Social Service bureau will be greatly hampered, Mrs. Irene Mills Jackson, executive secretary declares. Plans for a drive to secure funds will be outlined at the meeting of the executive committee called for Tuesday at 4 p. m., by E. M. Bokun, chairman. The bureau, Mrs. Jackson, says, will co-operate in the clean-up campaign April 1 to 7 and is listing the names of men with wagons and teams who can be secured for hauling. Scores of idle men were listed by the employment office which the bureau opened Monday. They are classified as to trades.

## DAMAGES SOUGHT

\$40,000 Suit Against Supply Company is Opened

Hearing of the \$40,000 personal damage suit of David Splitter, E. Market-st., against the Manufacturers' Supply company, was begun in common pleas court, Tuesday before Judge F. C. Becker and a jury.

Splitter, riding a motorcycle, was run down by a truck owned by the Manufacturers' Supply company at Main and Elm-sts more than a year ago, according to testimony and suffered injuries which he says, have left him an invalid for life. The Manufacturers' Supply company, in its testimony, will endeavor to show Splitter did not manifest ordinary precautions in crossing the street and was at fault.

The jury was taken Tuesday morning to view the scene of the accident, after which the trial proceeded. It is probable the jury will not take the case for deliberation before Wednesday.

## FREIGHT RATE PARLEY OPENS AT CLEVELAND

CLEVELAND — Chamber of Commerce representatives from thirteen cities, including Detroit, Toledo, Sandusky, Lorain, Columbus, Springfield, Dayton, Akron, Canton, Warren, Youngstown and Alliance, met here today with the Cleveland organization to discuss joint action to obtain thru freight rates from Ohio and the Lakes region to the south-east.

## MILEAGE BOOK MEASURE HELD UNCONSTITUTIONAL

WASHINGTON — A majority of the members of the interstate commerce commission in a statement presented today to the house commerce committee, held that the bill recently passed by the senate directing the commission to order the sale of interchangeable mileage books at a rate lower than the existing tariff was unconstitutional. The opinion presented verbally by Commissioner Esch former chairman and long a member of the house committee, was based primarily on a decision by the United States supreme court in the Lake Shore rate case in which the court held that an authorized reduction in mileage book prices was not for common benefit, but for the benefit of a favored few who were carried at less cost.

## NEGRO FREED OF THEFT CHARGE IS GIVEN NEW SHOES BY HIS ACCUSER

William Thomas, 22, colored, whose home is in St. Louis, needed a new pair of shoes. Monday, while cleaning up at the Hudson restaurant, N. Main-st., he saw his needs—a pair of brown oxfords—in the basement. He appropriated them. But the owner objected and filed a complaint at police station. Thomas was haled to jail, but the restaurant man experienced a change of heart, withdrew the charge and bought Thomas a pair of new brogans. The Missourian was sent on his way rejoicing.

## HUGE DIRIGIBLE AIRPLANE FLEET CARRIER PLANNED

WASHINGTON — Development of a huge dirigible airplane carrier from which a fleet of small fighting planes can be launched in mid-air, is probable in the near future, Brigadier General Mitchell, assistant chief of the army air service, who has just returned from a three months' investigation of aviation in Europe, said today.

Such a huge craft could obtain a big advantage for an army by securing up near the battle front and then launching its planes. The planes could be carried a long distance into the enemy territory at night, attack the enemy strongholds and still have sufficient fuel to return to their own lines. The wisdom of pushing development of big dirigibles, and other lighter than air craft, will soon be urged on congress, if the views of army aviation experts are backed up by the war department, it was learned.

## LLOYD GEORGE WILL ASK VOTE ON GENOA PARLEY

LONDON — Prime minister Lloyd George will resume his place in the house of commons April 3, and will immediately ask for a vote on the government's policy regarding the Genoa conference. Austen Chamberlain, the government leader, announced in the house of commons this afternoon. Mr. Chamberlain added that the government intended to put a motion clearly raising the question as to whether it possessed the confidence of the house of commons. "The whole house will recognize," he said, "that it would be impossible for us to ask the premier to go to Genoa if there were any doubt about his authority."

is not achieved by no corset at all as women are prone to think nowadays, but by a clever corset, which gives the desired effect and is still there to support and keep the body in graceful lines. The corset that is always up to the minute in style, that always shows the newer lines in its models first is BINNER, designed and constructed by a Fashion expert.

Thousands of women have found that the Binner Corset gives them an appearance of greater slimmness than any other corset they have ever worn. You will find them delightfully comfortable. The flesh is gently controlled where control is most needed.

It is so easy to be pretty. Almost anyone with a little cleverness can be called good-looking, but STYLE makes one woman stand out above all others in a large gathering. It makes her distinctive. The secret of style is

A bath mitten is quite useful in giving baby his bath and can be made out of a Turkish towel which has become too worn in places to be of further use as a towel. The mitten should be quite loose.

## SUSIE SMART'S ADVICE

Dear Miss Smart: I AM a boy 17 years of age and am very feet four inches tall. I have dark brown hair and eyes. I am intensely interested in the movie life and would like to know if you think it possible for me to enter. Do you think it proper for me to write to some director? If so, please send me the name and address of one in your answer. I am now a sophomore in high school.

ANXIOUS  
CAST aside your longing for the movies, my dear boy. Pardon me if I seem a bit frank or rude, but what I have to say is simply for your own good. I am thoroughly convinced, from your letter, that what you need more than anything else is to continue your education and make the most of every opportunity to improve and further your education. You state you are 17 and yet only a sophomore in high school. Perhaps it has been on account of illness that you are behind in your work, but certainly the only thing for you to do now is to earnestly fulfill every duty toward your school work and give up all thought of the movies for the present.

Dear Miss Smart: (1) How can you clean suede shoes besides brushing? (2) How can you clean a velvet dress? (3) What are the latest in shoes and the latest colors in dresses and hats?

BETTY  
(1) A powder, prepared especially for suede shoes, may be obtained at any shoe store. It may be had in grey, brown, black, tan or almost any color to match the shoes. (2) Steaming from the wrong side is the only way black velvet can be cleaned. However, the most satisfactory method would be to send a dress to the dry cleaner. (3) The black patent leather slippers are being displayed in the shoe stores more extensively than any other kind. Included among the many various colors, which are being used for the new spring frocks are anna, henna, periwinkle, rust, flame, navy blue, et cetera. The new hats are very bright, as you have doubtless observed. Red and periwinkle are among the popular colors for spring.

Dear Miss Smart: I should like to get some advice from you. I had curly hair and it was very only. I used some olive oil to make it lay flat and now the curl and oil have gone out of my hair. Please tell me what to do.

WORRIED  
You certainly are in a pitiful state. If you were just a little girl, who still believed in fairy tales, I might tell you to eat the crust on your bread. 'Tis said that one may acquire curly hair if this procedure is practiced very earnestly. However, since no one has been able to satisfactorily verify this method, I should advise you to go to a reliable hair dresser. Perhaps with a few treatments, your curls will reappear.

## POLLY AND PAUL --AND PARIS

By ZOF BECKLEY.

### THE MAD MOON

Violet Rand had been sulking in her flat since the morning she waylaid Polly and Barry coming home. Anger had obscured her vision. She had not foreseen the effect her behavior might have on Barry. He had not called. Nor telephoned. And to her messages, monsieur was "out." Violet had her own code of pride and dignity and it prevented her doing more. So she stayed moodily at home, refusing herself to everyone.

On the night of the great festivity, July 13, when all Paris forgets its worries and begins its threeday merrymaking, Barry's heart smote him.

She had her fine points, had Violet Rand—handsome woman, clever, too. Her feelings. . . . What were her feelings anyhow? She liked men.

Would she ever love? Or was Violet just out for gain? He found himself in her street, passing her house. It was dark save for four windows, high up—Violet's. So Vi was home, curious! A party maybe. . . . Well, there was safety in numbers—Barry turned in at the entrance.

Violet herself opened the door—Violet in a defiant mood, trailing a gown of orange chiffon that ripped and dared like flames as she walked.

"However 'o you come to be in tonight?" The words were banal; he could think of nothing better to say. "Where should I be?" she flared. "In the streets, dancing? With whom—what or? Is that why you come—because you thought I'd be out?"

"Perhaps I came to ask about that very unpleasant scene the other morning." Catching a dangerous glance he altered his tone. "Look here, Vi, why the dickens did you raise a row like that with little Miss Dawson?"

She turned squarely and faced him, staring long, as if to make a record of something. Then she walked away, with a strange, hard laugh.

"George," she spoke with an effort at self-control. "I knew men were fools but I can't imagine one who has known as many women as you have to be such a complete blind bat! . . . W. H. if you really don't know I'll tell you. It was because in the abyss of my own idiosyncrasy I was furious that she should take you away from me. Now get out! I am a madwoman tonight!"

Barry flushed slowly, but to his own surprise, he did not feel displeased.

"Then I shall prescribe for you. You've been moping. This is no night to mope. Come—be the guest of a lonely bachelor—unless there's someone else?"

She stopped, tracing a pattern on the table with her finger. It was

## Conspicuous nose pores grow larger if neglected

THE pores of your face are not as fine as those on other parts of your body. On the nose, especially, there are more fat glands, and there is more activity of the pores. If these pores are not properly stimulated and cleansed, they clog up and become enlarged.

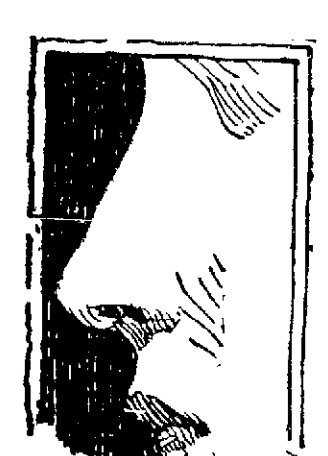

To reduce enlarged pores, follow every night this simple treatment:

WRING a soft cloth from very hot water, lather it with Woodbury's Facial Soap, then hold it to your face. When the heat has expanded the pores, rub in very gently a fresh lather of Woodbury's. Repeat this hot water and lather application several times, stopping at once if your nose feels sensitive. Finish by rubbing the nose for 30 seconds with a piece of ice.

GET a cake of Woodbury's today, at any drug store or toilet goods counter, and see what an improvement this treatment will make the first time you use it.

Do not expect to change in a week a condition resulting from long neglect. But follow the treatment persistently and you will be able to reduce the enlarged pores and make them inconspicuous.

A 25-cent cake of Woodbury's lasts for a month or six weeks of this treatment and for general cleansing use. The Andrew Jergens Co., Cincinnati, New York, and Perth, Ontario.

# THE RIDER OF GOLDEN BAR

BY WILLIAM PATTERSON WHITE

Continued from Our Last Issue  
He saw beyond the table Felix Craft with a gun in each hand. The gambler's face, despite the tears that overflowed his eyes and ran down his cheeks, was fairly murderous.

"Tip! Where are you? Don't you move, Bill!" Craft was saying, the barrels of his two guns weaving to and fro uncertainly. "Get away from that door, Bill. Don't you try and run away. I can see you."

Billy leaned forward, picked up a fork from his seat on the table and flung it across the room. It fell with a clatter. Craft fired at the sound. The next instant Billy kicked him under the chin and flattened him out.

"Put your hands behind you, Tip," he directed.

Tip answered the question by lifting his groping way toward the speaker. He stood still, his body quivering, his muscular fingers locked in the palms of his hands. Billy looked over the senses. Craft and whopped off his pocket.

Tip hesitated, then suddenly he turned around him, laid his six-shooter on a chair seat and drew the handkerchief beneath Tip's crossed wrists. The next instant Tip had slumped over, and Billy's body was on top and Billy under.

The older man jammed his thumbs into Billy's windpipe and himself astride Billy's back. The strangling Billy spread his legs, hunched up his knees, and both feet against Tip's ribs and straightened his legs with a gasp.

Tip's hands were torn loose from Billy's throat and Tip himself crawled backward against the wall. Billy scrambled to his feet and waved the slightest hesitation.

Tip moved over the head with the barrel of his six-shooter. Tip remained where he was. Billy stood motionless, till he made up his mind he was senseless. Then he took pains to make fast the trio's respective arms and legs with strips from a nightgown belonging to Sam.

It was his laudable intention to pack the unconscious Felix into a car and take him for the stagecoach robbery. It was a bold plan, but Billy always rather favored the bold plan. With Craft in jail and using the clothing worn by the other, to which clothing the commandant Jerry Fern and his passengers could undoubtedly be prepared to find it would be hard indeed, if he could not fasten the robbery on him.

But he had been his good angel who caused him to look thru the front window. He looked and saw a cloud of horsemen scouring toward the ranch house. He immediately recognized, to his great disgust, half a dozen of Sam Larder's punchers.

He abandoned the plan of taking Felix Craft to town. He would be hard put to escape himself. Billy topped his mount, struck in the spurs and fled. The other horse he perforce left standing.

CHAPTER XII  
Nate Samson, weighing sugar for Hazel Walton, looked at her sideways. "Heard the news, Hazel?"

Red Herring, the town marshal, slouching against a showcase, covertly watched the girl. Somebody killed Tip O'Gorman in his own house last night," said Nate.

Hazel wondered why Nate's eyes ever left her face. "Tip O'Gorman! He was one of Uncle Tom's friends, who did it?"

"They found Bill Wingo's quilt on the floor beside the body and right inside the door a snakeskin bandana the whole town knows belongs to Billy."

Hazel's cheeks began to glow. "That doesn't prove anything," she declared in a level voice.

Hazel's black eyes were glittering.

thru slitted eyelids. Really, Nate Samson should have been warned. "You think Bill did it?" asked Hazel Walton.

Nate nodded. "So does everybody else." "At any rate," Nate pursued with relish, "there's a warrant out for Bill."

"Another warrant!" Hazel's hand moved unperceptibly nearer a cheese-knife that lay on the counter. Another warrant. That makes three counts he's wanted on—stage robbery, rustling that chestnut horse of Sam Larder's and now this murder. I always said Bill Wingo was too good to be true."

Hazel Walton made no further remark. She reached for the cheese-knife. Nate Samson ducked under the counter. The cheese-knife whirled within an inch of his prick-

ling scalp and stuck quivering in the edge of a shelf. "Liar!" announced Hazel in a loud, unsympathetic tone. "I'm only sorry I haven't a gun with me. Talking like that about a man you're not fit to say hello to. Here, I don't want any of this stuff! You can keep it."

So saying, she toppled over her whole pile of wrapped purchases and marched out of the store. The marshal followed her to the door. "It's all right, Nate," he said. "She's gone over to the other store."

Arrived home, Hazel unheeded and unharnessed, turned the team into the corral and carried her purchases into the kitchen and dumped them on the table. She hung up her man's hat and fluffed the hair by the aid of the mirror that hung below the Terry clock her uncle had brought west with him. She had always liked the Terry clock—from the cheerful painted pumpkins and grapes that graced the patterned top to the peculiar throbbing ring it gave on striking the hour. She liked it.

And on the day the old clock was destined to repay that liking full measure, pressed down and running over.

"Lo, Hazel," "Hello, Sally Jane," she said snidely, as a face appeared at the door. "Put your horse in the corral and come on in."

"I tied him to the wagon," said Sally Jane. "You look mad, dear," she continued.

"I am," declared Hazel. "Listen to what I heard in town this morning. There now," she concluded. "What do you think of that for a put-up job? Why, it's not even clever."

"No," agreed Sally Jane. "Too many articles belonging to Bill. Either the quilt or the hatband, but not both. I'd like to know how they got hold of them. Tip had enemies—several. But I'm afraid the gang won't take that into consideration—much. All they'll be able to see is the quilt and the hatband. Confound it, Bill shouldn't have disappeared this way. All his friends know he didn't—couldn't have either hold up the stage or really rustled Sam Larder's precious horse, which, by the way, was found mired to the ears near Sam's corral this morning. Fact did told me. But why didn't Bill stay and face the music? He should have known he'd only hurt himself by running off this way."

"But I rode over here especially to bring you back with me to stay as long as you like."

Hazel shook her head. "Can't, dear. I'd like nothing better, but I've just got to look after the ranch."

When Sally Jane was gone, Hazel started a fire in the stove, put on the coffeepot and ground up enough coffee for four cups. She liked coffee, did Hazel Walton.

Bacon and potatoes were sputtering on the stove when the faintest of creaks at the door made her look up.

She did not move, just stood there staring stupidly at the bareheaded man that blocked the open doorway. For the bareheaded man was Dan Silke, his harsh face rendered even less prepossessing than usual by a week's stubble of beard. A six-shooter was in Dan Silke's hand, and the barrel was pointing at her breast.

"Don't go makin' any move toward that rifle on the hooks back of you," said Dan Silke, slipping into the room and closing the door behind him. "If you do, I'll have to beer you. Dish up that grub a-frying there on the stove. I'm hungry. Get a move on."

At that she turned in a flash and reached for the Winchester. She had it barely off the hooks when Dan Silke was beside her. With his left hand he seized the gun barrel and shoved it upward. And as he did so, he smote her across the top of the head with his pistol barrel.

A rocketing shower of sparks danced before her eyes and her knees gave way. He dragged the Winchester from her falling grasp as she fell.

Hazel slowly raised her body to a sitting position. She clung to a leg of the table for support. She passed a hand very tenderly across the top

of her head. She felt a little nauseated.

Dan Silke, watching her with hard, bright eyes, strode to the stove and poured himself out a cup of coffee.

"You'll be all right in about 10 minutes," he said calmly. "I didn't hit you so awful hard."

He drank the coffee slowly, with evident enjoyment.

He came and stood over her, hands on hips, and looked down at her grimly. She shrank away, her wide eyes fixed upon him in fright and loathing.

It was evident that he found his survey of her satisfactory, for he kicked her in the side. Nor hard. Simply as an earnest of what lay in store for her. "Get up," he commanded.

The nausea and most of the dizzy feeling had evaporated. She was perfectly able to get up, but it was intolerable that she should do the bidding of her uncle's murderer. She continued to lie still.

"Get up," he repeated, and kicked her again—harder.

She got up, gasping, a hand at her side. She felt as the one of her ribs was broken.

She had set the table for herself before he came in. He sat down at

## THE MOUNTAIN'S STORY

By OLIVE ROBERTS BARTON

The mountain shook as tho it had a chill and shook until Nancy thought it he didn't quit her head must fly off. Nick held onto the record for dear life.

"There!" gasped the mountain. "Now, I'm better. And I'll tell you my story. I really tried to be quiet, for Princess Therma saw you coming, in her Castle of Mirrors, and sent me word to be good. So I took a dose of anti-ticklish powders and told Snap-Snap, the bird who takes care of me, to scatter an extra coat of pebbles and gravel over my tender places. But you see it does no good. I'm hopeless."

"It's too bad," said Nancy. "Mother doesn't allow us to be tickled. She says it's bad for our digestion, and we always get the hiccoughs."

"Digestion! Oh, please don't mention it," begged the rubber mountain. "I haven't any. Do you know what I am made of? Plum pudding that cooked too long and got soggy. I ought to be called plum pudding mountain instead of rubber mountain."

## LAUGHTER AND TEARS IN CHAPLIN'S LATEST

(By ESTHER WAGNER)

"THE high light of 'The Kid,' Chaplin's greatest comedy, is reflected in 'Pay Day,' his latest. That high light is the pathos of poverty. Chaplin is the greatest tragedian of the screen today. That is why he is the greatest comedian. He creates laughs thru the psychology of contrasts.

Chaplin is writing his own film stories. He is expressing himself in them. That self is a hyper-sensitive soul that reacts positively and quickly to the sorry plight of another.

"Pay Day" has been heralded as a return to the old style of his slapstick comedies. Chaplin will never make a comedy such as he was making five years ago. He is a different man. He has achieved wealth and fame. He can now devote himself to doing what it pleases his whim to do.

Sydney Chaplin, Charlie's brother, appears as "a mere friend" in the cast. He is a pantomimist of no

mean ability. Jack Swain, the giant roughneck, is the boss. Edna Purviance, Chaplin's leading woman for a number of years and now to be starred in her own right, is the boss' daughter. Phyllis Allen is the wife whose size dwarfs the hero.

## CHAPLIN'S SCHEDULE

Chaplin made only two comedies last year, "The Kid" and "The Idle Class." "Pay Day" is only 1500 feet long, requiring 22 minutes to run, almost seven months were spent in its production.

"If I had to make pictures today just on a schedule I should feel a cog in the huge machine of production," says Chaplin. "The fact that I am able to express ideas on the screen as they come to me, that I am able to produce in accordance with my ideas as to how things should be produced, has given me the impetus to do my best—even if it takes time."

Chaplin has one more comedy to make under his First National contract.

CHARLIE CHAPLIN CAUGHT NAPPING IN THE BATHTUB BY HIS WIFE IN "PAY DAY," HIS LATEST. OTHER SCENES SKETCHED BY ARTIST E. R. HIGGINS AT A PREVIEW OF THE PICTURE.

Feature offering today and Wednesday. Also Hurricane Hutch serial.

CLIPPINGS: Elsie Percy is leading woman in "Pardon My Nerve," starring Charles Jones.

Shirley Mason completes "The Ragged Dicks."

Lillian Rix, leading man for Henry Porten in a number of European pictures, is now in America to play in films made here.

David Powell will return to America to play in Gloria Swanson's next picture, "The Gifted Cage."

## Faurot—"Two Little Girls in Blue"

A. L. ERLANGER will present at the Faurot Opera House tonight his annual musical comedy production, "Two Little Girls in Blue," which comes direct from an extended engagement at the Colonial Theatre, Chicago, after two hundred nights in New York and one hundred nights in Boston. This sprightly musical comedy represents the very best of the art of production and the outlay of a good fortune in costumes, scenery and effects.

The book of "Two Little Girls in Blue" was written by Fred Jackson, the music by Paul Lannin and Vincent Youmans and the lyrics by Arthur Francis, while the staging was done by Rod Wayburn. A definite and well-developed plot, revolving about the likeness of twin sisters, provided welcome novelty, and served to introduce the famous Fairbanks Twins, long popular with the patrons of Ziegfeld's "Follies," who now but eighteen years of age and alike as two peas. These pretty girls sing sweetly, chatter brightly, and dance daintily thru the action of the piece and furnish the romance which revolves around their attempt to make an ocean voyage from New York to India on one ticket, relying on their likeness to one another to deceive the officers of the ship, one always remaining in the state room while the other is on the deck. This deception might have worked very well had it not been that both were young and pretty and that they both fell in love during the voyage and not with the same young man. Hence numerous complications, many laughs, and many entrancing tunes. The cast in addition to the Fairbanks Twins includes the Tomson Twins, Jack Donahue, Emma Janvier, Evelyn Law, Jack Squire, Vanda Hoff, Donald Carroll, Louis Kelley and fifty others.

# BROOKLYN LOOMS AS PENNANT CONTENDER

## Ebbetts Says Dodgers Look Best In 20 Years

JACKSONVILLE, FLA. — "Best looking bunch of athletes Brooklyn has had in 40 years," Squire Ebbetts, owner of team.  
"Those Ivory hunters sure dug up a lot of good, big promising pitchers," Manager Robinson.  
"We've got a secondary defense stronger than in 1920 when we copped the pennant." — Scout Larry Sutton.  
"The boss wanted catching strength. I gave it to him with Hurling and DeBerry. The team looks mighty good to me." — Scout Nap Rucker.  
There you have the opinions of the four men overseeing the spring preps of the 1922 Dodgers outfit.

### BETTER SPIRIT PREVAILS

The morale is better even than the squads of 1916 and 1920, the Dodgers pennant years.  
Last spring Robbie started off with three dissatisfied stars who never got into condition, he had no reserve fielding strength.  
The pitchers complained of being overworked trying to trim the Yankees in the spring exhibition games.

### WILL CARRY PLAYERS' LIMIT

There are 36 veterans and recruits in the Brooklyn squad—16 pitchers, four catchers, nine infielders and seven outfielders.

A consensus of the big four, plus scattering comments by experts who have watched the squad at work, make the Dodgers the "dark horses" in this year's pennant dash.

The catching was slow and mechanical. The fielders, having no rivals on the bench, were sure of their jobs and with few exceptions jangled it.  
This year the Dodger chieftain has two or three players for every position, many of them capable young, hustling lads from the minors who are making the veterans watch their step.

Brooklyn intends to carry the full limit of 25 players this season. That is another sign of improvement. Last year Owner Ebbetts was satisfied with 21.

## SIZE IS NOT ONLY ASSET

(By HARRY GREY)

Conqueror of Tommy Gibbons

A fighter doesn't need to be a giant to be a champion.  
Because I am shy of the six-foot mark by several inches and don't weigh in the neighborhood of 200 pounds, I suppose a lot of people are not taking me seriously as a heavyweight contender.  
There was Bob Fitzsimmons, he didn't weigh much more than I do, yet he was reckoned as one of the greatest fighters the ring ever produced.  
True, Jeffries twice knocked him out, but before the finish Jeffries knew that he had been in a real battle.  
Joe Wolcott measured only a few inches over five feet, yet Wolcott constantly gave away from 15 to 20 pounds in weight and often as much as a foot in height.  
I have no desire to compare myself with either Fitzsimmons or Wolcott. I simply speak of these two great fighters to prove that one need not be a giant to be a fighter or a champion.

## PLANES, WARSHIPS HIT SUBS, BLIMPS

BUSINESS MEN STANDING

League-leading Airplanes in the five o'clock business men's volleyball loop retained their perfect record Monday night when they trounced the Blimps three straight.

The Men-o-war defeated the Submarines, also in three straight. There was hot fighting in both matches, the Blimps repeatedly running the score to 15-all in their last game with the Airplanes, and the Subs doing the same in two of their engagements.

## Boxing Commission Confiscates Money

COLUMBUS — Three scheduled ten-round bouts between negro battlers here last night furnished only four and one-half rounds of mulling.  
Bill Tate won a technical knock-out over Roughhouse Ware, New Orleans heavy.  
Preliminary bouts were all stopped by the referee before they had travelled two rounds each.  
The Columbus boxing commission confiscated gate receipts and the clubs forfeit of \$500, claiming there had been "no fight."

## FIGHT RESULTS

SANDUSKY — Jack Wolfe, Cleveland, knocked out Eddie Smith, Philadelphia featherweight in two rounds.

CINCINNATI — Tut Jackson, Washington Court House negro heavyweight, stopped Wild Bill Memphis, in the first round.

BOSTON — Benny Leonard, lightweight champion, didn't muss his hair winning \$15,000 and a ten-round decision from Johnny Clinton at an Elks Benefit.

NEW YORK — Joe Burman, Chicago bantam won a 12-round decision from Midget Smith, New York.

## ANTIOCH LET IN

COLUMBUS — Tentative basketball schedules for Ohio conference teams next season were arranged by conference managers in a meeting here last night.  
The feature of the session was that Antioch College, Antioch, Ohio, a non-conference team, managed to schedule games with 11 Ohio teams.  
Steps were taken at the meeting to arrange for officials to handle next season's football games, but no announcement of a decision was made.

## Stumped? Read Evans' Hints For Baseball Puzzle Solution

BY BILLY EVANS

"It's too deep for me, I give up," say some of the fans who have pored over my baseball puzzle without getting anywhere.  
As a matter of fact the puzzle is ridiculously easy. When the solution finally appears, every fan will wonder why it didn't hit a season pass.  
There are any number of ways a ball can be knocked over the fence

## WILL NOT PAY TEAM EXPENSE

Basketball teams in Allen and adjacent counties which will participate in the county tournament at the Y. M. C. A. here March 31 and April 1 labor under the misapprehension that their expenses will be paid for attending. Physical Director I. G. Maxwell, who is taking charge of arrangements, found Monday.

Such, however is not the case. While willing to assist the teams in securing accommodations, no expenses will be paid, Maxwell said. The only money derived from the meet is realized from the few admission tickets and entry fees, and is not enough to pay the fines.

A fee of \$2.50 must accompany each entry.  
Four more Lima teams in addition to the Lima Leads, Y. Triangles and First U. B. are assured, Maxwell declared. They are the Grace M. E. and All-Stars, Locomotives and Trinity Epworth league fives. Teams from other parts are taking their time for entering.

## 1919 CHAMPS

TOLEDO — The best bet in the five men division of the American Bowling Congress tonight, in the opinion of the tournament officials, is the Clipper five of Oshkosh, Wis.

The same team bowling under the banner of the Alhambra Hotel of Oshkosh, won the five men championship at Toledo in 1919 with a score of 2,992, which is six points below the present leaders, the Lincoln Life insurance company, of Fort Wayne, Ind.

Lincoln Life's of Ft. Wayne, lead the five-men teams with 2,998. C. Degen and F. Degen, Buffalo, are ahead in the doubles with a score of 1,297. W. Lundgren, Chicago, has not had his 729 shot in the singles. In the all-events H. Stewart of Cincinnati, leads with 1,962.

## Card Is Set; Verbryke Fights Jack Holland

CONTRACTS of all the pugilists who will fight on the Lima Gym club card April 7, excepting that of Willie Devore, Akron, who is scheduled for the main bout with Jake Gross, have been received, Charles Maxwell, matchmaker, announced Tuesday.

An announcement that carries a kick with it is the matching of Jack Verbryke, local North Side youngster, with Jack Holland, another Lima boy who lately discarded the cognomen "Indian," by which he is better known in the boxing world.

Verbryke has been knocking them cold in the gymnasium, and according to Maxwell, has the makings of a fighter. Holland has been scrapping for about a year, but heretofore had few chances on local shows. The

### SPECK KASLER PREPARES FOR RED YOUNG

Speck Kasler, pride of Delphos, started training for Red Young of this city by grooving the skills for Billy Dalton at Ft. Wayne Friday night. Speck laid his hefty mitt on Dalton for a clean knockout. Maxwell announced definitely that the Young-Kasler fight will be eight frames in length.

### NEW ORLEANS BOY KNOCKS 'EM COLD

Gan's record reads like that of a champion. In his palmiest days, Gunboat Smith in his palmiest days, he lays claim to the middleweight colored championship of the world. So Horner will have a lot to fight for. Both hold decisions over Lil' Art Sigall of Baltimore, Maryland, that in the case of Gans, however, being only a newspaper decision.

## “LIMA NIGHT” ON NEW LONDON CARD

Thursday will be "Lima night" at New London. Three local boxers, Indian Horner, Sailor Grant and Jack Holland, will fight on a card there and Charles Maxwell will referee.

Horner fights Adam Keats of Toledo in the ten-round final. Grant meets Lefty Donovan in the semi-windup and Holland is scheduled to exchange punches with Young Franklin.

It's an indication that promoters know where to go when they want honest-to-goodness pug for their programs.
